PROFILE

With over eight years of experience in building and maintaining client-side web applications, I possess strong technical and communication skills. My expertise includes a good understanding of UI design patterns, user experience, technology stacks, development tools, and industry best practices. I am an open-minded, curious, and analytical thinker, with the ability to grasp complex concepts and excel at troubleshooting.

Balsamiq • Figma • Sketch • Adobe • JIRA • Trello
Confluence • GApps • MacOS • Linux • WordPress

EXPERIENCE

Nov 2019 – Dec 2021

Cybertonica

London, UK

UI / UX Developer

Permanent, Full-time, Remote

Most recently, I worked at Cybertonica, a FinTech startup that provides security services for payment gateways and online banking. Their products offer real-time fraud and risk monitoring, automation, and machine learning-based decision-making. Backed by Europe's most successful venture firms and angel investors.

React / Data Visualisation / Wireframes / UI Design / Product Concepts / Website

- *Followed the Scrum development process, including attending stand-up video calls and planning sessions, writing JIRA tickets, and providing daily/weekly plans and reports for management. Collaborated with cross-border teams using multiple languages.*

- *Designed, developed, and deployed a new module for reporting purposes, which is now used by international banks and fraud analysts to simplify statistics and create reports for internal management meetings.*

- *Created wireframes for product UX improvements and new feature development, which the product owner and team have used in JIRA ticket requirements, sprint planning, and product documentation.*

- *Designed and developed concept dashboards for future product improvements and new product ideas.*

- *Re-designed and developed a new real-time fraud monitoring demo webshop, which the sales team has used for product presentation calls and new lead generation.*

- *Re-designed, developed, and deployed a new company website, integrated staging and live environments, managed server, and monitored security. Continuously updated and optimized the in-house WordPress theme, integrated marketing tools, and supported the team with technical website issues.*

- *Created multiple vector design assets for product aesthetic improvements, marketing team email campaigns, social media, and website blog posts.*

- *Designed and developed SEO-optimized responsive landing pages for Shopify App marketing and paid advertising campaigns.*

| Jan 2016 – Oct 2019 | Front-End Web Developer | *Flexible, Remote* |

Front-End Web Developer
Flexible, Remote

Freelance

Navan, IE

As a self-employed sole trader, I provided UI design, web development, and server management services to local clients and companies.

WordPress / Vue / React / Wireframes / UI Design / Servers / Domains / Emails

- *Planned, designed, and developed bespoke websites using Vue, React static site generators, and multiple UI frameworks, including Bootstrap, Bulma, and Material design.*
- *Developed custom WordPress themes and converted old websites to modern, fully responsive designs.*
- *Configured and maintained web servers, and successfully migrated websites to new servers.*
- *Integrated and monitored analytics to improve website SEO.*
- *Registered, managed domains, and configured email services for clients.*
- *Provided ongoing support to clients via phone and email.*

Web Developer
Permanent, Full-time

Apr 2015 – Nov 2015

Purple Pod

Navan, IE

Purple Pod was an Irish-owned web development firm that served a global market of clients ranging from start-ups to blue-chip companies.

WordPress / UI Design / Client Support

- *Designed and developed WordPress sites.*
- *Updated and maintained client websites.*
- *Developed custom CSS framework.*
- *Designed vector assets.*
- *Provided client support via phone and email.*

Junior Web Developer
Permanent, Full-time

Jun 2011 – Feb 2014

Snap Printing

Dunshaughlin, IE

I worked for a marketing company with extensive expertise in a wide range of services, including graphic design, promotional products, website design, web application development, SEO, and pay-per-click management.

Photoshop / Responsive Web Design / Browser Testing / WordPress

- *Sliced Photoshop mock-ups and turned them into fully functional websites.*
- *Optimized websites for mobile devices and implemented responsive design techniques.*
- *Tested websites for browser compatibility and user accessibility.*
- *Created a starter WordPress theme to streamline website development.*
- *Conducted research and tested new technologies to stay up-to-date in the field.*
